<b>Country of origin</b>	Italy

### Description

The **blind spots / angles morts panel for trucks**, è complies in size and color with the requirements issued in the French Highway Code by article R. 313-32-1 relating to the signaling of the presence of blind spots on heavy vehicles. The "blind spots" panel has a permanent adhesive with an internal and external duration of 5 years and is easy to apply. The products come in thermowrapped packs and are made in Italy.

Given the nature of the material of the tarpaulin, the panel is not suitable to be applied on them. It is recommended to apply the panel on metal surfaces.
