

TECHNICAL DATASHEET

Code	IKP-84F36
Brief Description	Pressed wood bench "INKA", mm 800x400x125h
Static load	750 kg
Dynamic load	250 kg
Dimensions outer	800 x 400 x 125 h mm
Weight	4.35 kg
Package	of 1 piece

Description

Inka pallets are innovative pallets that, compared to traditional pallets, have many advantages. Pressed wood products, they are reusable, lightweight (up to 60% less than wooden pallets), are safe because they do not have nails and screws and, being stackable, allow for considerable savings of space over traditional pallets. Inka pallets are also recyclable and are insensitive to weather and temperature variations.
