Capacity	500,00 ml
Suitable	To fix the placards / panels to the container
Country of origin	Italy
Dimensions outer	ø65 x 225 h mm

Description

Adhesive Spray

Transparent adhesive spray with high coverage and quick drying, ideal for securely fastening placards / panels to containers in adverse weather conditions. Our placards / panels have an adhesive backing guaranteed to be resistant even to immersion in sea water for 3 months, but for this to happen, the surface on which they are applied must be clean and dry and, for this reason, in wet periods or when the containers are not clean, it is possible to use this spray which guarantees high standards of resistance. It has an excellent spray control, high initial hold with sufficient time to allow the placement of the materials.
