

TECHNICAL DATASHEET

Code	AA-101-GN
Brief Description	
Type	A
Color	Yellow and black
Adhesive type	Yes
Dimensions outer	ø40 x 1 m

Description

Flexible bumper signaling profile for edges.

Ideal for preventing damages caused by impacts to people and machines.

Yellow and black colored, 1 m long, the bumpers are easy to use, insert or cut due to the high ductility.

The bumper is self-adhesive and is resistant to temperatures ranging from -40 °C to + 100 °C.
